If we do not have a product listed for a vehicle application you need, let us know and we will check to see if we can provide you with a solution.

ControlPRO2 - PAC

I am in 100% agreement with @benvei on this one, especially since you know you've been messing around back there. It's your life on the line if that airbag does not deploy and you don't want to just Clear the Code and keep it moving just for tunes - or worse, there's some sort of short and the airbag deploys on its own while you are at 65 MPH on the highway?

I have checked all the fuses. When I press the horn all you can hear is a clicking sound. What might the problem be? Thanks Sounds like either the horn relay or the horn itself. You will need to get ahold of a wiring diagram to show you where the horn and horn relay are; usually the horn is in front ...

Hyundai Elantra Questions - horn not working - CarGurus

Our problem began on Friday, July 10th. I was nearly home from work and my engine suddenly began to make a terrible sound and lose power. I checked the dash and there were no warning lights (I have never had a warning light come on at all in this car for any reason) so I parked the car.
