Automotive fuses are a class of fuses used to protect the wiring and electrical equipment for vehicles. They are generally rated for circuits no higher than 32 volts direct current, but some types are rated for 42-volt electrical systems. They are occasionally used in non-automotive electrical products.

#727518. With these four parts you can convert your 727 transmission to a 518 overdrive transmission with locking torque converter. What this kit does is makes a 518 transmission shift without a computer. Lets say you drive an average of 400 highway miles per week, at that rate you could save as much as \$1000.00 per year on gas, not to mention the 31% reduction in RPM.
