iDrive is an in-car communications and entertainment system made by BMW, used to control most secondary vehicle systems in late-model BMW cars. It was launched in 2001, first appearing in the E65 7 Series. The system unifies an array of functions under a single control architecture consisting of an LCD panel mounted in the dashboard and a control knob mounted on the center console.

Cj: Comments: I have a 98 BMW 328i and was replacing the stock stereo with an aftermarket Kenwood stereo. I bought a plug and play and worked all the wires to right colors but when trying to test the working kenwood deck it didn't turn on when key in ignition at second position and when car was on.
