Where does malaria transmission occur? For malaria transmission to occur, conditions must be such so that all three components of the malaria life cycle are present: Anopheles mosquitoes, which are able to feed on humans, and in which the parasites can complete the "invertebrate host" half of their life cycle; Humans, who can be bitten by Anopheles mosquitoes, and in whom the parasites ...

Jyoti - Reducing the resources necessary to produce value is the ultimate goal of kaizen. The takt time / cycle time calculation tells you what you MUST have to do the job as it is currently done. If you don't like what the math tells you, then set a target objective (what cycle time do you NEED?) then apply kaizen / problem solving to hit that target.

In the mature stage of a thunderstorm, the warmed air continues to rise until it reaches an area of warmer air and can rise no farther. Often this 'cap' is the tropopause. The air is instead forced to spread out, giving the storm a characteristic anvil shape. The resulting cloud is called cumulonimbus incus. The water droplets coalesce into larger and heavier droplets and freeze to become ice ...
