Reasons for testing. The most common reasons for laboratory semen analysis in humans are as part of a couple's infertility investigation and after a vasectomy to verify that the procedure was successful. It is also commonly used for testing human donors for sperm donation, and for animals semen analysis is commonly used in stud farming and farm animal breeding.

Semen analysis - Wikipedia

Many large companies use complex inventory databases to minimize excess inventory, but these systems are costly and difficult to setup. If you are a small or medium size company, or just need something to get you started, check out our simple inventory control solution that includes an Inventory Control Spreadsheet template, a Physical Count Sheet and an Inventory Label template.

Consensus is a normal and usually implicit and invisible process across Wikipedia. Any edit that is not disputed or reverted by another editor can be assumed to have consensus. Should that edit later be revised by another editor without dispute, it can be assumed that a new consensus has been reached.
