Sorry bout that, was just getting a little frustrated thats all, Here's the info I have on the truck, went to the garage for safety, didn't have cat conv on dual exh. so the took off driver's side exh and Y piped to single with one O2 sensor which was no good too begin with, second they welded the entire exhaust system from the Y pipe to the tailpipe so that makes it pretty tough to take off ...

Self Test EEC-IV Diagnostic Code Help - Ford F150 Forum

1990 Ford f250 7.3 diesel 4x4 I the engine replaced and when we took it for test drive the engine was great but the transmission (automatic E4OD?) would not shift properly. I had to manually shift from each gear....it would start only in third unless I manual changed to 1st. It will not shift into OD and the switch does not light up.
