

### Galaxy Note 2 Part Diagram

A galaxy is a gravitationally bound system of stars, stellar remnants, interstellar gas, dust, and dark matter. The word galaxy is derived from the Greek galaxias (γαλαξίας), literally "milky", a reference to the Milky Way. Galaxies range in size from dwarfs with just a few hundred million (10<sup>8</sup>) stars to giants with one hundred trillion (10<sup>14</sup>) stars, each orbiting its galaxy's center ...

### Galaxy - Wikipedia

The Hubble sequence is a morphological classification scheme for galaxies invented by Edwin Hubble in 1926. It is often known colloquially as the Hubble tuning fork diagram because of the shape in which it is traditionally represented.

### Hubble sequence - Wikipedia

A galaxy is a collection of stars and interstellar material held together by gravity. The galaxy our Sun lives in is called the Milky Way or the Galaxy (note the capital 'G').

The main title music to the Star Wars films is probably the most recognizable cue in film music history. Ever since its 1977 debut in Episode IV: A New Hope, it has remained enduringly popular among filmgoers of all ages and no doubt played a substantial role in catapulting sales of the film's soundtrack to over four million copies after its initial release.

Introduction. The Color Gamut defines the range of colors that a display can produce - so it is the most important defining visual characteristic of any display. While Color Gamuts have changed over the years, in the past virtually all displays needed just a single Gamut to produce all of the content that a user wanted to see.
