

Lab Manual For Windows Server

This article explains how to configure NTP on Windows Server 2012. If you're looking for Windows Server 2008 R2, see my article here. Remember, that in a domain environment, time synchronization is taken care of but you should configure the PDC Emulator of a domain to sync externally since that is the server which decides what time it is!

Configuring NTP on Windows Server 2012 | Sysadmin Lab

I'm sure we've all been in the spot, where a Windows Server for some reason or another decided to run windows updates and now needs a reboot.

Deploy Windows 10 in a test lab using Microsoft Deployment Toolkit (MDT)

Step by step - Deploy Windows 10 in a test lab using MDT ...

Windows Server 2012, codenamed "Windows Server 8", is the fifth release of Windows Server. It is the server version of Windows 8 and succeeds Windows Server 2008 R2. Two pre-release versions, a developer preview and a beta version, were released during development. The software was generally available to customers starting on September 4, 2012.

Windows Server 2012 - Wikipedia

On the Remote Installation Folder Location page, select the shared folder or click Next to accept the default value. This folder will hold the WDS images. On the DHCP Server page, if your WDS server also hosts the DHCP server role, select the Do not listen on DHCP and DHCPv6 option. If your DHCP server is running on a different server, remove this check box.

How To Install And Configure WDS In Windows Server 2016

The new version of Windows Server family "Windows Server 2016" is almost ready to be launch. It is currently available in the Technical Preview state.

Minimum System Requirements for Windows Server 2016

Combine the built-in security features of Windows Server 2016 and 2019 with Azure, where you'll find the most compliance solutions of any public cloud. If you're currently running Windows Server 2008 or 2008 R2, get three more years of security support to keep your ...

Windows Server on Azure | Microsoft Azure

There are so many different ways and articles out there on how to configure NTP in Windows and every time I had to look it up. So I decided to write my own article for my own reference for the setup in my lab so I don't have to Google it myself next time ☐☐

Configuring NTP on Windows 2008 R2 | Sysadmin Lab

Summary: It is time to create and optimize the golden image that we will use to deploy all our desktops. The primary purpose of this golden image is to run a basic test with the Login VSI benchmark tool, so I will optimize a Windows 10 VM to get the best performance (low latency) and user experience (low applications response times). Only some basic applications and MS office 2016 will be ...
