Inspect a laminator roller for damage if you begin seeing wrinkles on the film that extend from one side to the other. Additionally, blisters, impressions, spots and bubbles are signs that rollers may need to be cleaned or replaced. Sticky film can adhere to the heat shoes and make it harder to handle. If the roller ...

How to Repair a Laminator Roller | Bizfluent

These laminators are renowned for their quality and clarity, but as with most machines with

multiple moving parts, glitches can occur. Whether the problems are document quality or dirty rollers, they are fairly simple to troubleshoot. Before calling in a repair person, you can try a few troubleshooting steps on your own.

How to Troubleshoot GBC Laminators | It Still Works
