Development. It is one of many motors in the 300 series of engines, which were developed during and after World War II, while specifically the OM 352 was revealed in 1964. The OM 352's lineage can be traced back to the OM312, itself an 80 PS (59 kW) inline-six engine. The OM 352 has many applications, including marine, military, municipal, and agricultural vehicles, as well as stationary settings.
