Lecture 8 Greek Thought: Socrates, Plato and Aristotle: The political and social upheaval caused by the Persian Wars as well as continued strife between Athens and Sparta (see Lecture 7) had at least one unintended consequence. In the 5th century, a flood of new ideas poured into Athens. In general, these new ideas came as a result of an influx of Ionian thinkers into the Attic peninsula.

Due to a lack of surviving accounts, little is known about Plato's early life and education. Plato belonged to an aristocratic and influential family. According to a disputed tradition, reported by doxographer Diogenes Laërtius, Plato's father Ariston traced his descent from the king of Athens, Codrus, and the king of Messenia, Melanthus.

A turning point in the history of early philosophical science was Socrates' example of applying philosophy to the study of human matters, including human nature, the nature of political communities, and human knowledge itself. The Socratic method as documented by Plato's dialogues is a dialectic method of hypothesis elimination: better hypotheses are found by steadily identifying and ...

The German School of Diffusionism has chief proponents like Friedrich Ratzel, Leo Frobenius, Fritz Graebner and William Schmidt. Their approach was through the analysis of culture complexes identified geographically and studied as they spread and developed historically. It has both time and space dimensions. The first dimension of space was explained in terms of culture circles and the second ...
