C&C Collision | There's no question with perfection!

Milling is the process of machining using rotary cutters to remove material by advancing a cutter into a workpiece. This may be done varying direction on one or several axes, cutter head speed, and pressure. Milling covers a wide variety of different operations and machines, on scales from small individual parts to large, heavy-duty gang milling operations.

This Karaoke Night CD+G karaoke system will be a certain hit at home but is compact enough to take on the road as well. The compact size, however, doesn't mean small sound as you're getting a 4" diameter, full-range speaker delivering five watts of power. Just about any type CD will play on the built-in, top-loading player, including the 20-track CD+G demo disc that comes with the unit.

Rated 4 out of 5 by z0tch from Great value for money What a great value for money coffee machine! Sturdy parts, produces a great cup of coffee every time, the steam wand quickly heats the milk and is easy to clean. I love the automatic shot control and the auto off function when not in use to save power.

The Maschinengewehr 30, or MG 30 was a German-designed machine gun that saw some service with various armed forces in the 1930s. It was also modified to become the standard German aircraft gun as the MG 15 and MG 17. It is most notable as the design pattern that led to the MG 34 and MG 42, and thus is one of the major ancestors of many of the weapons in service which would later find widespread ...
