Solex 32 DIS Carburetor Service Kits and Spare Parts

Principle The Solex carburetor is supplied with fuel by a crankcase pressure acti-vated fuel pump. Fuel is pumped from the fuel tank through the fuel pump to the carburetor at which time the fuel needed is metered through the fuel jet, combined with air. This mixture goes to the cylinder. The Solex carburetor consists of 13 parts:

VeloCruz • PO Box 902021 • Sandy, UT 84090 - Generare

Later, under this name, the Solex was built as a motor assisted bicycle. As on any transportable, the carburettor is an important part. The solex carburettor doesn't wear out quickly. It regularly

happens that the nozzle of the Solex carburetor is clogging, especially when there is dirt in the fuel tank.
