

Tandberg 12 Reel To Reel

In 1997, The television manufacturing portions became Tandberg Television. In 1999 the company acquired the Norwegian technology company Internet Technology AS which had developers experienced with the ITU H.323 standard, especially from VoIP-projects like the world's first commercial H.323 VoIP service launched in 1997 with Telenor.

Reel to Reel Tape Recorder Manufacturers - Tandbergs ...

Tandberg was an electronics manufacturer located in Oslo, Norway (production, sales and distribution) and New York City, United States (sales and distribution).The company began in the radio field, but became more widely known for their reel-to-reel tape recorders and televisions.The original company went bankrupt in 1978 after a sharp financial downturn.

Tandberg - Wikipedia

Reel-to-reel or open-reel audio tape recording is a form of magnetic tape audio recording in which the recording medium is held on a reel, rather than being securely contained within a cassette.In use, the supply reel or feed reel containing the tape is mounted on a spindle; the end of the tape is manually pulled out of the reel, threaded through mechanical guides and a tape head assembly, and ...

Once or twice we got what the japanese didn't get : the PS-X7 was export-only. In Japan, the top end of this mid-end lineup was the PS-X6: same everything but for the carbon-fiber tonearm! "Mid-end", however, is used here to describe a turntable designed and made during what arguably was Sony's best period.
